

Amendments to the Claims:

The listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

Claim 1 (Original) A suspension antiperspirant aerosol composition comprising milled activated aluminium chlorohydrate (AACH) having non-hollow particles and a carrier fluid comprising a masking oil of viscosity 10^3 mm²/s or greater.

Claim 2 (Original) An aerosol composition according to claim 1, wherein the AACH is present at a level of from 1% to 30% by weight of the composition.

Claim 3 (Original) An aerosol composition according to claim 2 wherein the AACH is present at a level of from 2% to 5% by weight of the composition.

Claim 4 (Currently Amended) An aerosol composition according to ~~any of the preceding claims~~claim 1, wherein the masking oil has a viscosity of 30,000 mm²/s or greater.

Claim 5 (Currently Amended) An aerosol composition according to ~~any of the preceding claims~~claim 1, wherein the AACH has a continuous RI.

Claim 6 (Currently Amended) An aerosol composition according to ~~any of the preceding claims~~claim 1, wherein the masking oil has an RI of 1.40 to 1.57.

Claim ~~8-7~~ (Currently Amended) An aerosol composition according to claim 6, wherein the masking oil is a silicone oil.

Claim ~~9-8~~ (Currently Amended) An aerosol composition according to ~~any of the preceding claims~~claim 1, comprising an additional emollient oil.

Claim ~~10-9~~ (Currently Amended) An aerosol composition according to ~~any of the preceding claims~~claim 1, comprising a bulking or suspending agent.

Claim ~~11-10~~ (Currently Amended) An aerosol composition according to ~~any of the preceding claims~~claim 1, comprising a volatile silicone.

Claim ~~12-11~~ (Currently Amended) An aerosol composition according to ~~any of the preceding claims~~claim 1, comprising a propellant gas.

Claim ~~13-12~~ (Currently Amended) An aerosol composition according to claim 12, wherein the propellant gas is a liquefied gas at a level of from 5 to 95% by weight of the composition.

Claim ~~14-13~~ (Currently Amended) A method of manufacture of a suspension antiperspirant aerosol composition, said method comprising the suspension of a milled activated aluminium chlorohydrate (AACH) having non-hollow particles in a carrier fluid comprising a masking oil of viscosity 10^3 mm²/s or greater.

Claim ~~15-14~~ (Currently Amended) A method of reducing perspiration and giving low visible deposits comprising the application to the human body of a suspension antiperspirant aerosol composition comprising milled AACH having non-hollow particles and a carrier fluid comprising a masking oil of viscosity 10^3 mm²/s or greater.
